Excludes: international flights, domestic flights &/or transfers; 'extras'.

**10 nights:** FROM US\$ 7 300 pps  
(based on 2 guests; valid 2021)

## Kafue Exploration

*Kafue National Park*

Jeffery & McKeith operate two camps located in some of the most remote and wildest reaches of the Kafue National Park. Deep in the heart of northern Kafue National Park lies their base camp, **Musekese Camp**. Perched on a spectacular lagoon, Musekese has made a name for itself with expert guiding, exceptional food and phenomenal wildlife viewing. Explore this game-rich area by vehicle, foot or boat along the emerald green Kafue River.

Some three-hour game drive to the north of Musekese Camp lies **Ntemwa-Busanga Camp**. A rustic bush camp in a wilderness area on the southern edge of the Busanga Plains. This simple but charming camp is perfectly suited to make the most of the diverse Busanga Plains. Explore its multitude of habitats, from riverine thickets in the south, the tree-lined edges and the productive, flooded grasslands in the centre and the variety of wildlife that inhabit them.

**Kaingu Lodge** is an owner-run lodge situated in the Namwala Game Management Area on a spectacular and remote stretch of the Kafue River. The Kafue River, with all its myriad of channels, rapids and islands lends itself to a range of exciting river based activities which include boat cruises, fishing, birding, canoeing and river trails.

## ITINERARY DETAIL

### EXCLUSIONS & NOTES

International flights & visa fees where applicable  
Gratuities; DNPW Park fees, Kafue Conservation Contribution; SES MediVac Cover

### GOOD TO KNOW: Liuwa Plain

Jeffery & McKeith Safaris also operate a mobile camp in the Liuwa Plain, known for hosting the second largest wildebeest migration on the continent but also for its unrivalled natural beauty, abundance of birdlife and spectacular grasslands. Unfortunately it is not that easy to combine with other areas as there are no scheduled flights. However it is possible to charter a flight between the Kafue and Liuwa Plain. November would be the best time to combine these areas as camps are open in both parks at this time.
